Mayor Issues Proclamation Em-  
phasizing Value of Clean  
Up Campaign

**A PROCLAMATION.**  
The week of April 11-16 has  
been designated as National  
"Clean-Up and Paint-Up" week.  
This campaign, carried on  
throughout the United States, has  
resulted in many advantages to  
community life:

In safeguarding health,  
in promoting thrift,  
in furthering fire prevention,  
in stimulating civic pride; and  
in making the "Home and City  
Beautiful."

Now, therefore, to encourage  
the attainment of these objects in  
the city of Bismarck, in the week  
of April 11-16 is hereby pro-  
claimed "Clean-Up and Paint-Up  
week" in the city of Bismarck,  
during which time all citizens are  
urged to join in a common effort  
to safeguard health and beautify  
the city by a thorough cleaning of  
their premises.

A. W. LUCAS,  
Mayor

**"Clean-Up and Paint-Up"**

This is the slogan in 7,000 cities  
throughout the nation this week,  
known as "Clean-Up and Paint-Up  
Week."

The week is proclaimed in Bismarck  
by Mayor A. W. Lucas, urging citi-  
zens to join in the annual outdoor  
spring house cleaning to safeguard  
health, promote thrift, further fire pre-  
vention, stimulate civic pride and in  
making the "Home and City Beau-  
tiful."

Balmy spring weather has already  
turned the thoughts of hundreds of  
Bismarck people to beautifying their  
premises and to making gardens. An  
outdoor house cleaning in a city in  
the spring is declared by health au-  
thorities just as essential to the wel-  
fare of our city as it is to clean the  
home.

Local business men have joined in  
the promotion of "Paint-Up and Clean-  
up Week." Started in St. Louis a few  
years ago the campaign for a special  
clean-up week spread over the coun-  
try like wildfire. Testimonials from  
cities both large and small declare  
that great good has resulted from  
thorough effort to clean-up.

**Working on Streets.**

Commissioner of Streets John French  
joined in an appeal to the people of  
the city to clean alleys, streets and  
boulevards this week and with the  
appeal a declaration that they must  
be kept clean during this spring and  
summer.

Men already are working on the  
paved streets and the streets will be  
flushed in a few days. The earnest  
co-operation of all citizens is solicited  
by Commissioner French.

One of the practices of some prop-  
erty owners which causes the street  
department considerable trouble is the  
depositing of rubbish on the pave-  
ments. This will not be permitted,  
the commissioner said.

**British Report Says Irish Mob  
Attack Soldiers Quartered  
in Hotel**

DUBLIN, April 11.—A battle raged  
for twenty minutes this morning  
around the Northwestern hotel in the  
North Wall section here when civi-  
lians armed with bombs and firearms  
fiercely attacked the hotel where gov-  
ernment auxiliaries were quartered.  
One of the assaulting party was killed  
and two of them were wounded, one  
of them seriously.

Cork, Ireland, Apr. 11.—Two constab-  
les were shot at daylight yesterday  
while walking along a street in Kil-  
derry. Both died later.

**HOLD MEETINGS  
IN BIG CITIES  
TO SELL BONDS**

Thirty meetings to sell North Da-  
kota bonds will be held, according to  
Carl D. Thompson, of Chicago, former-  
ly secretary of the national socialist  
party.

They will be held at various cities  
in the country, the first being in St.  
Paul May 2 and in Minneapolis May 3.  
Other cities in which they will be held  
are Toledo, Detroit, Cincinnati, In-  
dianapolis, Fort Wayne, Boston, Mad-  
ison and Milwaukee.

**MISS BERNHARD  
TAKES OFFICE**

HETTINGER, N. D., April 11. Mrs.  
Ida M. Bernhardt, taken office as  
county auditor. She is the first wo-  
man in the state to receive this honor.

**REVOKED CABLE  
PERMIT TO STOP  
CONNECTION PLAN**

WASHINGTON, April 11. Permits  
for the operation and maintenance of  
the Western Union cable between  
Key West and Cienfuegos, Cuba, was  
revoked by President Wilson after re-  
ports that the Western Union would  
use this line to connect the Hawaiian  
South American cable to American  
shores. It was disclosed by a govern-  
ment brief filed in supreme court.

**Emmons County Lets Contract  
For Road Work Connecting  
With Burleigh Co.**

Road construction in North Dakota  
for which federal aid is given will ap-  
proximately cost \$2,000,000 in 1921,  
according to estimates of the state  
highway commission. Of this amount  
the government pays half, while the  
counties pay practically all of the re-  
maining \$1,000,000, the state furnish-  
ing some aid in engineering work.

The road work to be done during  
the coming season will be about dou-  
ble the miles of road constructed last  
year, the highway commission engi-  
neers estimate. Prices on contracts al-  
ready let are from 25 to 40 per cent  
lower than in 1920.

Surveys have already been made by  
the highway commission for as many  
federal aid projects as there will be  
federal aid for, it is stated. Some ap-  
plications for federal aid made in the  
future, however, may be granted re-  
sulting in failure of counties to let  
contracts for work for which surveys  
have already been made.

**Emmons-Burleigh Road.**

Among the federal aid projects for  
which contracts have been let in the  
last week are the following:

Project No. 88, in Wells county.  
Building road ten miles north from  
Hurdfield. Contractors: road work,  
Stevens Brothers, St. Paul; culverts,  
Russell Grader Manufacturing Com-  
pany, reinforced concrete, A. J. Jack-  
son, of Jamestown.

Project No. 92, Four mile stretch  
from Bow, Bddy county. Road  
work, James Yeaman, Devils Lake;  
metal culverts, North Dakota Metal  
Culvert Company, reinforced con-  
crete, N. M. Nielson, Valley City.

Project No. 101, Six mile stretch  
west from Carrington. Contractors:  
road work, Curran and Cowell, Valley  
City; metal culverts, North Dakota  
Metal Culvert Company, reinforced  
concrete, N. W. Nielson, Valley City.

Project No. 103, Four mile stretch  
north from Barlow, Bddy county.  
Contractors: road work, Henry Halvor-  
son, Sheyenne; metal culverts, North  
Dakota Metal Culvert Company; con-  
crete, W. H. Carson Construction Co.,  
New Rockford.

Project No. 119, Five and one-half  
miles north of Linton connecting  
federal aid project No. 34, completed  
last fall. Contractors: Linton Bridge  
and Construction Company and Stan-  
ley Brothers, St. Cloud, Minn.

Project No. 91, Eight and one-half  
miles from Burleigh county line south.  
Contractors: Linton Bridge and Con-  
struction Company, and Stanley Bro-  
thers, St. Cloud, Minn.

**State Road 125 Miles Long.**

With the letting of the contracts  
for Stutsman county federal aid pro-  
ject No. 58, which is a 21-mile stretch  
through Pingree, and Benson county  
project No. 98, a 15-mile stretch at  
Minnewaukan, both of which are ex-  
pected to be advertised soon, there  
will be a practically continuous state  
highway from Jamestown to Devils  
Lake by way of Niles, a distance of  
about 125 miles.

The first federal project for which  
a contract was let this spring was in  
Pierce county for a stretch of 15 1/2  
miles, which connects federal aid pro-  
ject No. 20 at the county line between  
Pierce and Wells counties, and ex-  
tends north toward Rugby.

**HOME BUILDING  
ON INCREASE**

NEW YORK, April 11.—Home build-  
ing in New York increased 76 per  
cent over a year ago for the period  
since February 25, the effective date  
of the state law rendering non-taxa-  
ble new homes.

**106 RAILROADS  
LOST MONEY**

WASHINGTON, April 11. Inter-  
state Commerce Commission reports  
show that 106 of 206 reporting rail-  
roads failed to earn expenses during  
February.

**20 AMERICANS  
GET SCHOLARSHIPS**

NEW YORK, April 11. Twenty  
Americans were given scholarships in  
universities of Denmark, Sweden and  
Norway.

**Utah Senator Announces New  
Plan for Raising National  
Revenue**

WASHINGTON, April 11. The new  
republican administration got under  
full headway today when the sixty-  
seventh American congress convened  
at noon for the extraordinary session  
called a few weeks ago by President  
Harding.

The program today was expected to  
be limited to the usual opening pro-  
cesses including the adoption of res-  
olutions providing for a joint session  
on Tuesday to hear the president's  
address and to organize work.

Committees of leaders will also be  
appointed to notify the president of  
the assembling of congress.

Domestic needs including tariff and  
tax revision are expected to be em-  
phasized by President Harding Tues-  
day but he also is said to be planning  
a considerable discussion of interna-  
tional questions. Republicans promi-  
nent in congress received reports last  
night that he would state with con-  
siderable definiteness his attitude  
toward the proposal to establish peace  
with Germany by congressional ac-  
tion.

The first legislative achievement  
promises to be enactment of the  
emergency tariff bill vetoed at the  
last session by President Wilson.

This is to be introduced in the  
house and reported during today or  
Tuesday. It will be taken up for de-  
bate on Wednesday and republican  
leaders will press for a final vote be-  
fore the week-end. Senate leaders al-  
so will press the measure hoping to  
get it into President Harding's hands  
by next week.

**For Sales Tax.**

WASHINGTON, April 11.—A gen-  
eral sales tax was advocated in a state-  
ment by Senator Smoot, Utah a repub-  
lican member of the senate, announced  
committee, who formally announced  
he would introduce a bill to that end  
in the senate Tuesday.

Senator Smoot's measure, which he  
estimates would yield approximately  
\$1,500,000,000 in revenue annually,  
would place a flat tax of one per cent  
on gross sales above \$500,000 annu-  
ally of virtually all commodities, both raw  
materials and finished products. The  
bill carries a few exemptions but ap-  
plication of the tax would be stayed  
practically only on such commodities  
as now bear a higher levy.

**WOULD ABOLISH BOARD.**

Washington, April 11.—A bill to  
abolish the railway labor board now  
functioning under the transportation  
act and place its duties under the In-  
terstate Commerce Commission was  
introduced by Representative Tinkers,  
Republican, Kansas.

**ASKS MORE POWER.**

Washington, April 11. Legislation  
to "put teeth" in labor department ef-  
forts to conciliate labor department  
disputes was urged by Secretary Davis.  
Both sides should be compelled to  
live up to agreements reached or  
decision of arbitrators they have ac-  
cepted, he said.

"This is not compulsory arbitration,"  
Mr. Davis said. "I do not be-  
lieve it feasible to pass laws against  
the right of workmen to strike, but I  
believe there should be laws to com-  
pel all parties to labor disputes to try  
to get together before strikes are called."

**PROTEST SEATING C. O. P.**

Washington, April 11. The seating  
of Richard D. Byrd as a Republican re-  
presentative from the Litchfield Kan-  
sas district was protested on the floor of  
the house today by Rep. Florence Brown,  
Democrat, Virginia.

Mr. Brown charged that Mr. Byrd is  
own sworn statement of citizenship  
expenditures. "I would like to see  
twice the amount of a candidate for re-  
presentative is permitted to expend for  
the federal campaign," he declared.  
The house adopted a resolution by  
Rep. Mondell, Republican, Idaho, that  
the negotiations would proceed smoothly.

The two pictures above show  
the why of Rotary's boys work,  
which is your boy doing—shooting  
craps with the gang or taking part  
in mainly sports properly super-  
vised. On the one hand he is play-  
ing wrong; on the other he is play-  
ing right, and having more fun.  
To see that he does right is the  
purpose of Boys' week, instituted  
by Rotarians and supervised by  
William Lewis Butcher.

The International Rotary clubs have  
stepped forward as the champion of  
your boy and every other fellow's boy.  
Bismarck Rotary is doing its part  
in the international plan.

To promote play and other ac-  
tivities of boys in the right channels  
the Bismarck Rotarians have engaged a  
director of boys' activities.

William Lewis Butcher, whose pho-  
tograph is shown herewith, is in  
charge of one boys' movement of  
Rotary Boys' week, April 30 to May 7.

This year only New York and Chi-  
cago will observe the week. Next year  
600 Rotary clubs throughout the nation  
will observe Boys' week.

William Lewis Butcher has charge  
of the event in New York.

The movement got its start during  
1920 when investigation of New York  
City showed:

That each year 10,000 boys are ar-  
rested for law violations.

That only two out of seven boys  
have the opportunity for making good.

That only one boy out of five is  
able to use his spare time to advan-  
tage.

Purposes of Boys' week are:  
To interest every one in boys and to  
interest boys in themselves.

To compel recognition of the fact  
that America's boyhood is the guaran-  
tee of its future.

To emphasize the fundamentals of  
character building for citizenship.

The program for Boys' week in New  
York calls for a parade of 100,000  
youths; outdoor exercises; a day given  
to the house; a day to the church;  
with the balance of the time inter-  
persed with addresses and useful  
lectures.

Butcher says surveys eventually  
will be made in every town, city and  
hamlet, to discover what facilities are  
lacking for the improvement of boys.  
Funds for the work are subscribed  
by Rotary members.

"Take care of your boyhood and  
the nation's future will take care of  
itself," but first give the boy a chance,"  
is the slogan for Boys' week.

**REVOLT LEADERS  
PUT TO DEATH**

MEXICO CITY, April 11. Revolu-  
tionary army leaders were sentenced  
to death for having advocated rebel-  
lion in the state of Puebla.

**MARKETS BY WIRELESS.**

Washington, April 11. The Depart-  
ment of Agriculture has adopted the  
wireless as a first aid to farmers.

Beginning April 12, Secretary Wal-  
lace announced, market reports will  
be sent to all agricultural interests  
by radio from the postoffice depart-  
ment stations at Omaha, St. Louis,  
Belleville, Pa. and Washington, D. C.

The committee of the local lodges  
charged with the responsibility of ar-  
ranging for the entertainment of the  
delegates is composed of Grant Marsh,  
E. J. Gabel, P. J. Donohue, Mrs. P. J.  
Donohue and Mrs. Geo. Johnston.

Two of the main features of the con-  
clave will be the banquet to be held  
at the McKenzie hotel on Wednesday  
evening and the grand ball to be given  
at Patterson hall on Thursday eve-  
ning. It was at first proposed to have  
the ball on the roof garden, but it  
will be held in the hall unless there  
should be a marked change in the  
weather.

In addition to delegates from all  
parts of North Dakota, it is expected  
that representatives of the following  
live will be here from Dea Moines, Ia.

**BELIEVES LORD  
MAYOR WILL GO  
BACK TO ERIN**

WASHINGTON, April 11.—Secre-  
tary Davis, in a formal statement to-  
day, said he had "no doubt" that  
Donald O'Callaghan, Lord Mayor of  
Cork, would comply with "the logic of  
the situation" and re-ship as an alien  
seaman within 60 days from the date  
of the state department ruling that he  
was not entitled to an asylum in the  
United States as a political refugee.

Philadelphia, April 11.—O'Callaghan  
will remain in this country until he  
considers it safe to return to Ireland,"  
said Michael Francis Doyle, attorney  
for the Lord Mayor of Cork, here to-  
day.

**FORMER GERMAN  
EMPRESS DIES  
AT EYLE HOME**

**Augusta Victoria Second Mem-  
ber of Ex-Kaiser's Family  
to Die Since War**

**SUFFERED FOR ONE YEAR**

**Heart Trouble Cause of Death—  
Collapse of Central Empire**

**Worried Her**

DOORN, April 11.—(By the Associ-  
ated Press.)—Former Empress Augusta  
Victoria of Germany died at 6 o'clock  
this morning.

The end came just one year after  
she suffered her first serious attack  
of heart disease.

It was while she was preparing to  
enter the House of Doorn, the present  
home of the former Emperor of Ger-  
many after her long resident at Amer-  
ongen that she was stricken with what  
at the time was believed to be a fatal  
attack. That was on April 11, 1920.

For a few days they were reports  
that her death was momentarily ex-  
pected but she rallied and accompa-  
nied her husband to Doorn on May  
15 last.

**William At Bedside.**  
Former Emperor William and  
Princess Adelheid were at the bedside  
when the former empress died. At-  
tacks of her fatal malady recurred at  
intervals, each sapping her vitality  
and nullifying the measures taken by  
specialists to restore her health.

When her son, former Prince Joachim,  
committed suicide in Berlin last July  
she was in such serious condition that  
the news of his death was kept from  
her for a long time and it is stated  
she never learned her son killed him-  
self.

Collapse of the Central Powers and  
the vicissitudes of war that drove  
former Emperor William of Germany and  
his consort into practical exile in Hol-  
land in November, 1918, was the low-  
ering of the curtain in the life of the  
once beautiful Empress and Queen of  
Prussia, Augusta Victoria, who, for  
nearly 40 years, had been the most  
beloved hausfrau of the German peo-  
ple. In the Netherlands, where she  
and her husband resided first at Amer-  
ongen and then at Doorn, the former  
Kaiser's long continued illness was  
made more grave by her yearning to  
return to Berlin and Potsdam. On sev-  
eral occasions, since her residence in  
Holland members of her family had  
been summoned to her bedside in an-  
ticipation of her death, but she rallied  
and survived.

**Mother of Six.**  
It is not known that she exercised  
any considerable influence politically  
or that she desired to do so. Her tal-  
ents seemed, instead, to be directed  
to the task of becoming a helpful wife  
and a devoted mother to her six sons  
and one daughter. That she achieved  
this aim, the former emperor attested  
frequently. He once described her as  
"the ideal of the virtues of a German  
princess. She is," he declared, "to  
whom I owe that I am able to bear  
the weighty responsibilities of my po-  
sition in a joyful spirit."

Prior to the hearing Judge McElrath  
received a telegram from Brinton,  
who organized the stores company in  
1917, advising against the appoint-  
ment of Johnson.

**250 DELEGATES  
HERE THIS WEEK  
AT CONVENTION**

**Yeomen Lodge to Bring Visitors  
From All Parts of North  
Dakota**

Arrangements are virtually complete  
for the entertainment of the delegates  
to the state convocation of the Brother-  
hood of American Yeomen, in Bismarck  
on Wednesday and Thursday  
of this week.

The committee of the local lodges  
charged with the responsibility of ar-  
ranging for the entertainment of the  
delegates is composed of Grant Marsh,  
E. J. Gabel, P. J. Donohue, Mrs. P. J.  
Donohue and Mrs. Geo. Johnston.

Two of the main features of the con-  
clave will be the banquet to be held  
at the McKenzie hotel on Wednesday  
evening and the grand ball to be given  
at Patterson hall on Thursday eve-  
ning. It was at first proposed to have  
the ball on the roof garden, but it  
will be held in the hall unless there  
should be a marked change in the  
weather.

In addition to delegates from all  
parts of North Dakota, it is expected  
that representatives of the following  
live will be here from Dea Moines, Ia.

**Seek Help of "Liberals" in Chi-  
cago Following Ladd,  
Dinner**

**LEMKE IN CLEVELAND**

**General Selling Campaign Re-  
ported to Be Planned by  
Officials**

Chicago, April 11.—(By Associated  
Press.)—North Dakota officials con-  
cerned with the sale of \$6,500,000 in-  
dustrial bonds of the state conferred  
in Chicago today with leaders of lib-  
eral elements and with city officials.  
The party was headed by Governor  
Frazier and F. W. Cathro, director-  
general of the Bank of North Dakota.  
It was learned that William Lemke,  
attorney general of the state, was in  
Cleveland today holding meetings  
with liberals of that city.

Governor Frazier had an appoint-  
ment with Mayor William Hale  
Thompson, of Chicago, for this after-  
noon, but it was indicated that sub-  
jects other than the bonds were to be  
taken up at that conference.

**Dinner Given.**

Today's developments resulted from  
a recent dinner held here which was  
attended by Senator Ladd, of North  
Dakota; Lieutenant Governor Cum-  
mings of Chicago; and Lieutenant Gov-  
ernor Wood of North Dakota. Repre-  
sentatives of the Public Ownership  
League and similar bodies were also  
present.

It was reported that the object of  
the Nonpartisan league were thorough-  
ly gone over and that those present  
endorsed the plan for a general cam-  
paign of education on the league and  
its activities which has a nation-wide  
scope for a goal.

**Use Burdick Statement.**

In connection with these meetings  
a statement was given out, signed by  
Usher Burdick, former lieutenant gov-  
ernor of North Dakota, present pres-  
ident of the Farm Bureau Federation  
and one of the Grain Growers com-  
mittee of twenty-one in which he favored  
completion of the state-owned eleva-  
tor in North Dakota. He said this ele-  
vator would be an important factor in  
the plans of the grain growers com-  
mittee.

Incidentally Mr. Burdick expressed  
opposition to the recall election pro-  
posed for next November in North  
Dakota arguing that the campaign  
would result in postponing of the com-  
pletion of the elevator.

**NAME RECEIVER  
FOR STORES CO.  
IN MINOT COURT**

**Reichert Appointed Following  
Protest of Anti-Manage-  
ment Group**

(Special to the Tribune.)  
Minot, April 11.—C. W. Reichert, of  
Carrington, was named receiver for the  
Consumers United Stores company by  
Judge George H. Moellering in the dis-  
trict court in Minot this morning.

When the hearing opened Attorney  
E. R. Skinker, of Minot, representing  
the farmers who opposed the appoint-  
ment of W. C. Johnson presented a  
petition on behalf of his clients asking  
that Reichert be appointed.

Attorney E. B. Goss, representing  
the stores company advised the court  
that in view of the situation created  
by the position taken by the farmers,  
Johnson desired to be checked out and  
relieved of his duties and the appoint-  
ment of Reichert would not be op-  
posed.

Prior to the hearing Judge Moellering  
received a telegram from Brinton,  
who organized the stores company in  
1917, advising against the appoint-  
ment of Johnson.

**ADMITS MURDER  
STORY UNTRUE**

BUFFALO, April 11.—Ray Harris  
admitted that his confession of the  
Elwell murder was untrue, saying he  
had wanted to die because of mis-  
fortune and had concocted the story.  
The murder of Elwell, New York  
club man, was the greatest murder  
mystery of last year. Harris sur-  
rendered a few days ago, but police  
found his story did not conform to  
known facts.

New York, April 11.—Convinced that  
Ray Harris told the truth in repudi-  
ating his confession of complicity in  
the murder of Joseph B. Elwell in  
New York last June former Governor  
Charles S. Whitman, and Captain Ar-  
thur Carey of the New York police  
department today notified Buffalo of-  
ficers that their interest in the prisoner  
had ceased.

"Harris showed plainly," said Mr.  
Whitman, that he had not the slight-  
est knowledge of the facts in the El-  
well case except what he had read in  
the newspapers."

# FACTORY MEETS HARD PROBLEM BY ENGINEERING

Cooling Tower is Largest in  
World—No Shovels Used  
in "Firing Up"

The man who goes shivering to his cellar morning after morning to "lay on a few shovels of coal and shake the grate" will look with envious eyes on the immense new power plant now being completed by Dodge Brothers, Detroit motor car manufacturers. Tons and tons of coal will be consumed there beneath eight huge boilers, but not one shovel will be in sight. It is to be a "hovel-less" plant from beginning to end. No coal will be shoveled in and no ashes will be shoveled out. Everything is to be automatic. A car dumps its fuel cargo into a hopper and passes on. Soon another car comes and receives a load of ashes—and no human hand will have touched the coal in the entire process of transformation.

There are other equally remarkable features of this up-to-date plant which make a strong appeal to anyone interested in seeing how manufacturers today are solving problems which would have been put aside as impossible less than a generation ago.

The power plant is designed for an installed capacity of 40,000 K. W. and it requires approximately 25,000 gallons of water a minute for each 10,000 K. W. unit. There is no natural water supply within miles of the factory. To take water from the city mains and then waste it after passing once through the condenser, would be out of the question. Not only would the cost be prohibitive—it would be about 70 cents a thousand cubic feet, or \$550 an hour—but the drain on the city's supply would be far too heavy. In other instances where similar problems presented themselves, the solution has been found in a cooling pond, a large reservoir where the water was stored and used over and over again. In this case, however, so large a tract was not available. Not only are property prices extremely high, but there was danger that the spray rising from such a pond would damage newly manufactured cars and parts. So this plan also was abandoned.

From this problem or conglomeration of problems grew the plans for what has now become the largest cooling tower in the world—a structure 145 feet long, 32 feet wide and 104 feet high. It is capable of cooling 18,000 gallons of water a minute from a temperature of 105 to 85 degrees when the outside temperature is 72 degrees and the relative humidity is 69 per cent. With other atmospheric conditions, the water will be cooled to within 25 degrees of the existing dew point with a minimum temperature of 45 degrees. This tower effectively disposes of the problem which confronted Dodge Brothers construction engineers. It makes possible the repeated use of the same supply of water, with a loss of only 5 per cent due to evaporation. The tower is of the most substantial type, capable of withstanding a wind pressure of 90 miles an hour.

## CHIEFS LIKE OAKLAND FOR SURE TRAVEL

Thirteen Are Used by St. Louis  
Fire Department

All car owners and prospective motorists must have admired the dependability that motorized fire "engines" display in their daily work. Indeed, the bromide boast of many drivers is that their cars are "just like fire engines—always ready to go."

Disgruntled motorists may have wondered, considering personal experience with troublesome cars, how the firemen keep their vehicles in such fine condition. The method is no longer a secret, having been compiled by the Oakland Motor Car Company.

## Why We Are Strong for Willard

We've seen a lot of batteries, but never another like the Willard Threaded Rubber Battery.

Threaded Rubber insulates the plates instead of separating them the way wood separators do.

No carbonizing, puncturing, checking or cracking, because Threaded Rubber Insulation retains all the valuable insulating qualities of rubber and is not affected by acid.

That's one reason why we're strong for Willard Threaded Rubber Batteries.

of Pontiac, Mich., from inquiry among authorities on motorized fire apparatus.

This method, which contains some sound advice for any car owner, has been received in Bismarck by Corwin Motor Co., local Oakland representative, who passes the story on to all car owners.

"The first reason for the dependability and efficiency of fire department vehicles is that such dependability and readiness is essential," he introduces the subject. "Such dependability is desirable in any car, of course."

"The Oakland Company has found that the majority of officials who have to do with the selection and purchase of fire vehicles, appreciate this quality. Therefore, they will buy only cars of proved and known dependability. Experiment might cost a great deal more than the mere price of machines."

"For instance, in St. Louis the fire department purchased thirteen Oakland roadsters in 1915 for the use of department officers. These cars are still delivering traditional Oakland service. The engines in these Sensible Sixes are at the same highly-efficient, overhead valve type that Oakland builds today. And, after all these years of arduous service, these Oakland cars are still in first class shape."

"This case seems to prove conclusively that the first thing to do in obtaining a car of complete dependability is to buy a good car—not necessarily a costly car."

## SMALL BUILDER IS OFFERED A FINE SERVICE

Architects Form Association to  
Aid Small House Builder

A new service is offered to prospective builders of small houses in Bismarck and the entire Slope country.

Recognizing the need of service of experts to builders of small houses, a service which the builders often do not have, many leading architects of the Northwest have joined in an association to perform necessary technical and money-saving service at a small cost.

People in Bismarck and vicinity who plan to build houses are particularly fortunate in being able to avail themselves of the service of Van Horn and Rittenbush, architects, 209 7th St., who are members of the association known as the Architects' Small House Service Bureau of Minnesota, Inc.

**Do Not Have Service.**

Many builders of small houses do not have the service of an architect. The new plan offers him the service at a very small cost, and the builder may save a considerable sum of money through such service. The announcement of F. M. Mann, president of the bureau, in part, says:

"The plans, specifications, quantity, survey and form of agreement which are a part of the service which the Architects' Small House Service Bureau of Minnesota, Inc., renders to the home-builder are guaranteed in every way complete and free from any obligations on the part of the purchaser.

to buy materials, home equipment building supplies in order to secure the plans and service.

"These plans and specifications are designed to insure the home builder sound construction and a completed home of safe investment. The specifications are unbiased, honest and written to insure protection against inferior and cheap materials."

**Show Step by Step.**

"The home-building documents show step by step how to proceed with the erection of your home, what to expect from your contractor, the form of contract to use in order to secure complete fulfillment in every respect of all the details and items called for in the plans."

"When you employ our home plans and service your relations to this bureau are on exactly the same basis as they would be if you secured the services of a regular architect. Each home plan is considered to be an instrument of service and forms a part of the completed service which this bureau offers you in the planning and building of your home. As an instrument of service each house plan is the

property of the bureau and cannot be used for other homes without the consent of the bureau. If you wish to keep the plan for personal satisfaction, our bureau is pleased to accord you that privilege. This method of sale and service protects you against the chance of other homes exactly like your own being built in the same locality."

## The FORDSON is more than a Tractor

**IT HAS** proven to be such an economical, efficient, durable tractor that it pays for itself within a few months' time if used only for plowing, discing, harrowing and other field work.

But the Fordson is more than a tractor. It is an economical, powerful, portable power plant that will drive any kind of belt-driven farm implement.

With this power plant you don't have to spend valuable time dragging around a heavy cumbersome gas engine.

Down in the wood lot, sawing up the winter's fuel—up in the barn yard, filling the silo—baling hay—grinding feed—everywhere on the farm, every day in the year, there are jobs for this wonderful, portable power plant.

The Fordson is provided with a belt pulley placed at the right side of the transmission housing. It is driven thru a beveled gear.

With a pulley at the right-hand side, and the belt running forward, it is easy for the driver to line up the pulley properly without leaving his seat.

The powerful Fordson engine is 22 horse power at the pulley at 1000 R. P. M. This is ample power to do any work on the farm. The pulley is 9 inches in diameter, and is designed for a six-inch belt.

Don't think of the Fordson merely as a tractor—think of it as one durable, efficient power unit that not only replaces the horses on field work, but also replaces the stationary gasoline engine, besides doing scores of jobs that have formerly been done by hand.

Come in and let us show you just why this tractor has proven such a remarkable success—why farmers are buying them by thousands every month. You will be interested in learning how we handle the service also.

## ANNIVERSARY OF BIRTHDAY FETTER

Friends and neighbors of Mrs. Charles Liessman very happily remembered her birthday anniversary on Saturday afternoon, a goodly number calling to offer congratulations. The afternoon was spent with needle work and a pleasant hour was spent over the teacups. The hostess was assisted in serving a dainty lunch by Mrs. John Hagen and Mrs. R. H. Grace.

Out-of-town guests were Mrs. C. Strambach of Tuttle, mother of the hostess, and Mrs. Holmgren, wife of Doctor Holmgren of Sioux Falls, South Dakota. The ladies are house guests of Mrs. Liessman.

### WOMAN'S EXCHANGE TO START

Bismarck is to have a Woman's Exchange at last; a place where good things to eat, pretty things to wear, etc., may be had. Mrs. N. W. Kelly has moved her picnicking and hemstitching shop from the Hagart block to one of the new stores in the Little block, just opposite the milk station on Broadway. Here the picnicking and hemstitching will be continued, and in addition there will be glass cases for the display of home cooking. Another department will be pretty hand made things for babies and grown-ups. Everybody in Bismarck and surrounding country having a gift for producing any artistic and useful thing can bring it to the Woman's Exchange and have it disposed of through Mrs. Kelly's staff of workers. The combination has excellent possibilities and may grow into an ideal women's headquarters if the right spirit is shown in helping Mrs. Kelly push the important civic enterprise. A food sale the last of the week will open the exchange. Watch for the ad.

### GWENDOLYN WELCH HOSTESS

Miss Gwendolyn Welch was hostess to eight of her high school friends on Saturday at a 8 o'clock dinner, the occasion being the birthday anniversary of the young hostess. Following the dinner the evening was spent with

music and visiting. An out of town guest at the Welch home is E. F. Jones of LaCrosse, Wisconsin, brother of Mrs. Welch, who is spending the week in Bismarck.

**—AND KEEP IT UP**  
Why confine spring house cleaning to the house? Someone must have asked this question a few years ago to himself or herself—doubtless it was a woman—and the answer was obvious. Why, indeed, should every housewife clean her house during the spring and the community at large do nothing.  
So the campaign was started with the slogan "Clean Up and Paint Up". It took a campaign to arouse community interest. How has it succeeded?  
Seven thousand cities in the country now have spring "Clean Up and Paint Up" campaigns.  
Civic pride has been awakened as never before.  
The necessity of a clean city to preserve health has been fully demonstrated.  
Hundreds of thousands of people, especially children, have become voluntary inspectors of their cities.  
Millions of dollars have been saved in preventing fires by removing unsightly and dangerous fire traps and in removing rubbish.  
The life of buildings has been lengthened through proper painting. Actual tests have proved that the loss through lack of painting is greater in Kansas than the loss by fire.  
Cleanliness, sanitation, beautification, conservation and safety are all civic synonyms. They symbolize good citizenship, and good citizenship is good business.  
Bismarck citizens can do no more valuable service to their city this week than by joining wholeheartedly in the "Paint Up and Clean Up" campaign proclaimed by Mayor Lucas.  
And after cleaning up and painting up—keep it up.

**A CIVIC LEADER**  
Mandan sustained a heavy civic loss Saturday in the death of Rev. Charles Hamilton Brown. Rev. Mr. Brown was more than a minister of the Episcopal church. He was a city leader.  
His personality was one which gave him rare opportunities. He was never narrow and his warm, hearty smile and handclasp made all feel that in him they had a friend.  
He knew North Dakota and knew its people. He had lived the life of the typical pioneer of the state, homesteading and then holding county office for fifteen years before resigning to enter the ministry.  
And after cleaning up and painting up—keep it up.

**YOUR HEALTH**  
Swiss insurance companies announce that their rates for insuring women hereafter will depend on the women's clothes. Short skirts and low necks will mean a higher insurance rate, the insurance doctors having found that these cause much illness.  
The old-fashioned mother who urges her daughter to bundle up in cold or rainy weather has ages of wisdom behind her.  
Often a woman dressed like a chorus girl can defy the elements. But she's the exceptional case. Wet feet and chills are the deadliest enemies of the average woman.  
Fashion books say that women next winter won't wear galoshes. If this comes true, it will be one of the most unfortunate changes in the mad history of American fashions.

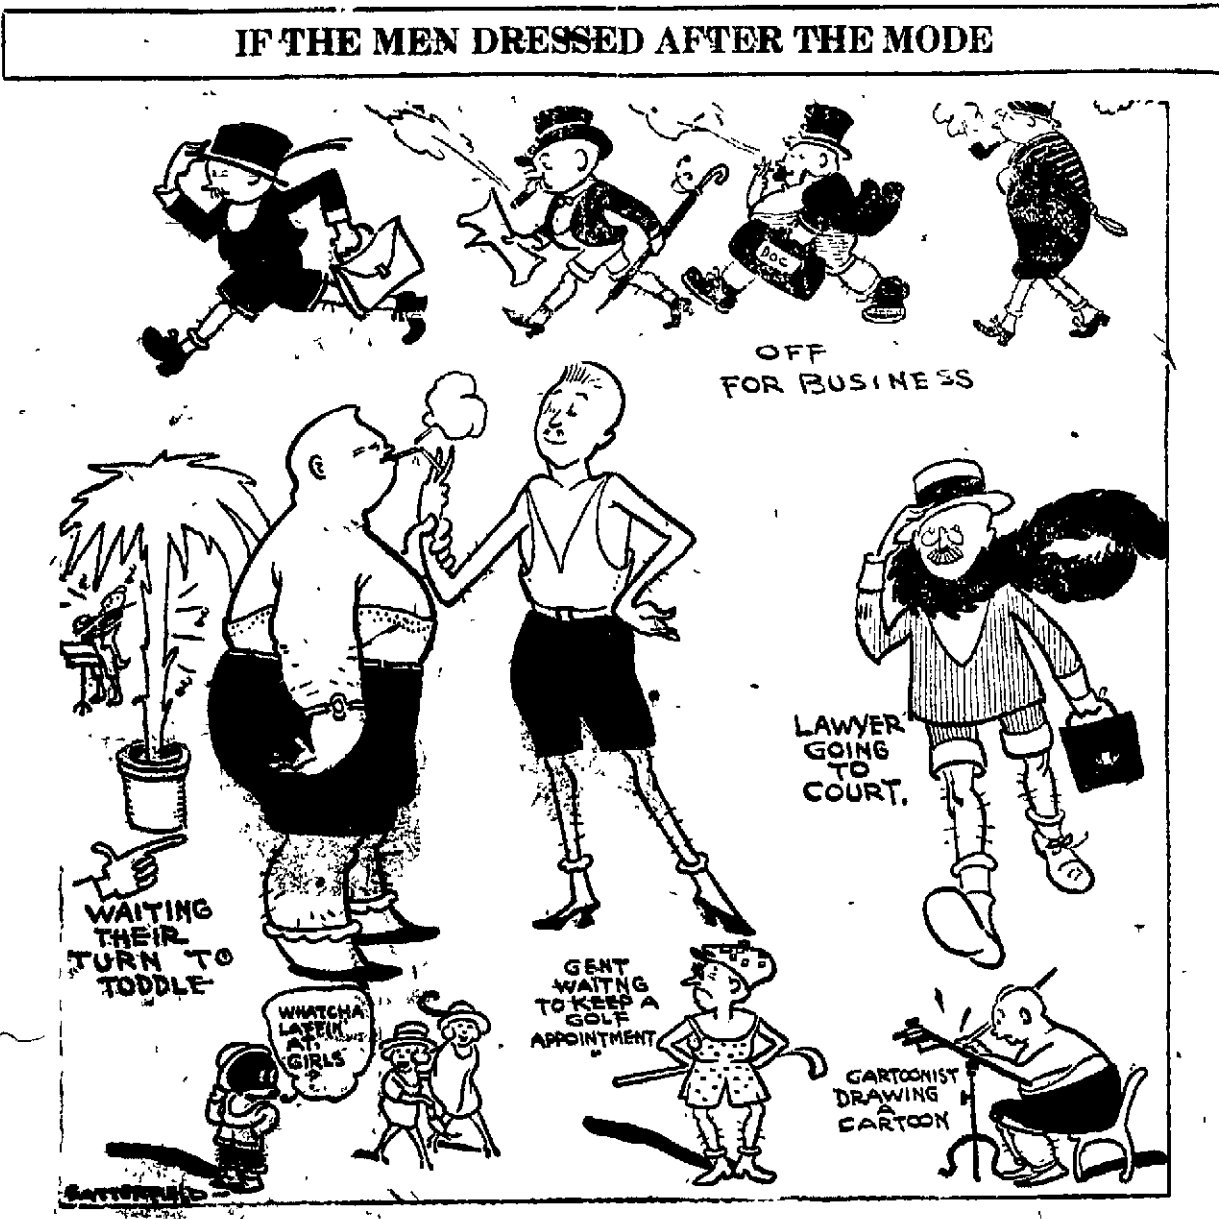

**IF NOT PLAGUE, THEN FAMINE**  
Dispatches from China tell of the forcible cutting off of the queue of Chinese as a measure of sanitation in the fight against typhus, which is propagated through the bites of lice.  
But the orthodox Chinese believes that if he dies without his queue his soul will be lost. As between living in China with the fear of eternal perdition, and dying now of typhus, good Christians can see that there is much to be said for the Chinaman who prefers queue, death and salvation.  
There is still another argument against the stamping out of typhus which appeals to certain Chinese minds. Years ago an American scientist traveling in the interior of the Flowery Kingdom found a city in which bubonic plague was raging. He called on the mandarin who governed the place and explained to him the cause of the spread of this disease—through the bite of fleas infesting rats.  
The mandarin had never heard of this, but he was an intelligent man, and was keenly interested. "Yes," said he, after all his questions had been answered, "I can see that what you say is true. It agrees with the facts."  
"Give me the men and the authority, and I will

stamp out this dreadful plague," said the American.  
The mandarin suddenly lost interest. "Why, should we go to all that trouble and expense?" he inquired. "There are too many people."  
And there are too many people in China. They press against subsistence always. There are some areas of land in China which could be reclaimed and made to grow food; but the birthrate would fill them almost before they could be reclaimed.  
What China needs is a lower birthrate. Until she has it something will always kill off the population until it can live off the country. If not typhus or plague, then starvation.

**TONEY!**  
Were you ever invited out to a swell dinner and then got stumped as to which fork to start eating with? Did you pick up your water glass and sip and sip until someone took the lead in picking up a fork? Or did you ever show up at a party in street clothes and be mortified because all the other wore satin-lapel undertakers' coats?  
If so, salvation is at hand, for a flood of books on etiquette is appearing in our midst. It seems that none of us is to be spared, for the flood includes an "Encyclopedia on Good Form for Little Ones."  
These books on how to be polite prove that everything travels in a circle. They are a resurrection of a craze that swept the country a half century ago.  
Joe Miller's joke book had nothing on the etiquette guides of by-gone days. In them you could find everything from "how to set the table for a six-fork dinner" to "model for a letter from a young man at preparatory school requesting funds from his father." "My Esteemed Parent," ran the letter, et cetera, et cetera, et cetera.  
"Never remove false teeth at the table without holding a napkin over the mouth," was one of the printed rules.  
It further appears, on perusing the old volumes in the attic, that it was bad form for a gentleman to pick his teeth with a quill when riding in a hack. It was the height of impoliteness for young folks in the twenties to lead the conversation when old folks were present. To be in good form, one's calling cards must be penned with great flourishes that looked like an X-Ray picture of the bones of a black-bass.  
Politeness is most commendable—particularly in adjuring us not to eat pie with a sharp knife. In a jostling, selfish city a return to good manners would make this a happier world.  
But let's hope the etiquette-book craze won't whip us back to the stilted days of hoop-skirts and side-whiskers when the code demanded that the polite person act like a trained monkey.

**THE CONQUEST OF THE UNKNOWN**  
Twelve years ago this month—April 6, 1909—Read Admiral Peary discovered the North Pole. You recall his great contest with Dr. Frederick A. Cook, who claimed that he had reached the North Pole April 21, 1908, a year ahead of Peary. Those were exciting days—and the dispute still lingers. Peary is dead—exploring the Hereafter.  
Cook lives at Ft. Worth, Texas. He seldom breaks into the news.  
Roald Amundsen reached the South Pole Dec. 16, 1911.  
Now the only thing that is left in the way of difficult exploration is the ascent of Mt. Everest in the Himalayas, on the frontier of Tibet. Highest known mountain peak on earth; it towers upward about five and a half miles. A British expedition is preparing to climb it—which will take two years.  
You, toiling in the penitentiaries which we call cities, probably wish you could join the Mt. Everest expedition.  
You of this generation have lived through the final chapter of man's conquest of the earth.  
How many years that conquest was in process, scientists disagree.  
Chinese claim that their Buddhist monks visited America as far back as the year 432. Thirty-two years later, Hsueh-shin, Chinese explorer, penetrated to a point that may have been San Blas, Mexico. That is, if you believe the entries in the Chinese Year Books, now in the British Museum.  
Irish monks made the first expeditions northward. In 725 they established settlements in Iceland.  
Norwegians claim that their Bjarni sailed along the coasts of Nova Scotia in 985—first Europeans to see America.  
Lief the Lucky, Eric the Red, Thorwald, Madoc of Wales and finally Columbus—each was the Peary, the great explorer of his day.

Man has virtually completed his conquest of the EARTH.  
But man's explorations have little more than started.  
Airplanes now explore the upper air. Who knows but what some future Peary may explore the vast stars out in the universe, traveling in an airship or in a rocket such as Prof. Goddard proposes firing at the moon?  
Every man gropes into the unknown.  
Rarconi, in discovering wireless, was an explorer.  
Sir Oliver Lodge and other scientists are trying to explore beyond the grave.  
And this month, 12 years after Peary electrified the world by reaching the North Pole, America is visited by Albert Einstein, explorer in the fourth dimension, in the mysteries of time.

**FREE MOVIE TO BE SHOWN HERE AT AUDITORIUM**  
Public Generally Invited by Local Dentists to See Comical Pictures  
Every adult person in the city is invited to attend the free moving picture show at the Auditorium tonight.  
The pictures are to be shown under the auspices of a local committee of the state dental association as a part of "Better Teeth Week."  
The films are said to be remarkable and fully as entertaining as any film shown. The first one to be shown, "Come Clean," is a comical picture, based on the experience of a soldier. The film carries the idea of the necessity of keeping teeth clean to insure health, but this is really only the "moral" of the picture. It begins with the rejection of an officer would-be soldier in the army because of defective teeth, tells how he got in and depicts in a comical way the funny experiences of the soldier. Another film, produced by the Red Cross, is both comical and instructive.  
Local dentists brought the films from Chicago, and one dentist who saw them at a Chicago convention declares they kept 1,000 people laughing all through the showing.  
The pictures were shown this afternoon for children.

**ACKLEY WINS PLACE FOR N. D.**  
Grand Forks, N. D., April 11.—The three students winning honors in the interstate oratorical contest held last evening in the Presbyterian church, Grand Forks, and who will participate in the final interstate competition in South Dakota in May as given out in alphabetical order are: Howard C. Ackley of the University of North Dakota, Thomas G. Harrison of the Nebraska Wesleyan University, and Russell Hartman of Penn College, Iowa.  
The place won by Mr. Ackley for the first time put the University of North Dakota into the final contest of the interstate oratorical association. His oration, entitled "The Master Builder," in which he maintained America to be the master builder for the future peace of the world, was one of exceptional merit. The other two winning orations, Mr. Hartman's "Hinges of Peace," and Mr. Harrison's "America's Answer," were remarkable in both thought and composition.

**STOMACH UPSET?**  
Get at the Real Cause—Take Dr. Edwards' Olive Tablets  
That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.  
Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.  
Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.  
Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.  
Take one or two tablets for quick relief. Eat what you like. 15c and 30c.

**DOROTHY PHILLIPS RISES TO GREAT HEIGHTS IN "MAN-WOMAN-MARRIAGE"**  
The superb acting of Dorothy Phillips in "Man-Woman-Marriage," Allen Holubar's famous Associated First National production, now playing at the Eltinge theater, has placed Miss Phillips so far in the forefront of the world's best cinema stars that there is little doubt that fandom will accord her tribute as the screen's greatest dramatic actress.  
Until the advent of Miss Phillips in independent productions movie fans have been prone to classify the screen stars for some particular type of acting. One has excelled in emotion, another in comedy and others along various histrionic lines, but the sublime work of dainty Dorothy Phillips in a picture abounding with dramatic situations of all classifications has placed her in a class which embraces all the finer points accorded to her screen sisters.  
Those who have watched the artistic growth of this star have realized that it was always in the stories of Allen Holubar and under his direction that she has excelled. In "The Heart of Humanity," Miss Phillips first convinced the movie-going public that she was on the road to superlative stardom. In "The Right to Happiness" she took advantage of each situation to display her great ability as an actress, but it was not until she was furnished with a vehicle of still greater possibilities that she reached the peak of screen art.  
Born and reared in Maryland where she was schooled in a convent, this brilliant star began her legitimate stage career in a Baltimore stock company. From there she went to New York where she appeared as "Modesty" in Henry W. Savage's production of "Twenty Women." For two seasons she was leading woman of "Marjorie's Pal" and she might have been upon the stage yet had it not been for the fact that she spent one summer vacation playing leads for Bauman in Chicago. Her work there encouraged her to leave the stage and take up screen acting as a career.

**ADVENTURES OF THE TWINS**  
By Olive Barton Roberts  
"Hello folks, how's the life?" called a voice.  
After Mr. Seal had finished telling his wife about the circus he had left, he picked up his newspaper and his pipe and started to read again, or at least he pretended to read. But he was chuckling to himself and his fat silky sides were going out and in with his chuckles.  
He was pleased at himself for impressing upon his wife that a circus was no place for a quiet, home-loving seal. He's really made out that it was a dreadful affair.  
Mrs. Seal was disappointed. She had hoped that when she was married her husband would take her around to see the wonderful wide world that she had heard so much about.  
She'd heard that beyond the icebergs the world was green instead of white, and that there were lovely things of different colors growing in the ground, called flowers, and other things of lovely colors flying around in the air, called birds. She'd seen older ducks and gulls but they were white and gray like the snow and rocks. Most of all she wanted to see a circus.  
She suddenly noticed her husband's fat sides going out and in, and stopped a sigh she had begun. "Why, Sully," she cried, "I believe you're laughing!"  
"Laughing!" snorted Mr. Seal soberly at once. "Nothing of the sort! It's just his coughs. I ate two pecks of salmon for my lunch, and I ought to know better at mid-day I shall have to diet again. I'm getting too fat!"  
Mrs. Seal was about to sympathize as a nice patient wife should do, when a cheerful voice called. "Hello, folks, how's the life?" It was Flippety-Flap, the fat-man, and Nancy and Nick, the twins.  
"Good lands!" said Mrs. Seal drawing back in alarm. "It that a man and a lady and a clown?"

## WARNING GIVEN OF "BLUE SKY" LAW VIOLATIONS

State Department to Distribute Placard Over the State

Many stock salesmen in North Dakota are wholly disregarding the "blue sky" law in selling stock in North Dakota. Because of receipt of numerous complaints to this effect a warning has been printed by the state banking board to be posted in the various postoffices of the state.

"The blue sky" law makes the sale of stocks, bonds or investment contracts or other securities without first obtaining a permit from the state banking board a felony punishable on conviction by a fine of not less than \$500 nor more than \$5,000, or imprisonment of one to ten years.

"The public is cautioned to ascertain that the company or corporation whose stocks, bonds, investment contracts or other securities are being offered for sale, have a permit from this department and that the person offering same for sale has in his possession an agent's permit issued to him for the current year from this department, the same being stamped for the year for which it is issued and the company or corporation represented."

Agents' permits are good for but one year and the agent must show the permit at the time of selling stock, the secretary says.

## MILITARY CAMP FOR DAKOTAS AT FORT SNELLING

Plans for Conduct of Second Plattsburg Camps Are Announced

CHICAGO, April 11.—Military training camps for civilians, conducted along the lines of the original Plattsburg camp, are scheduled for the middle west during the coming summer, according to an announcement today by the Central Department headquarters of the Military Training Camps association.

A camp will be conducted at Fort Snelling, Minn., for Iowa, Nebraska, Minnesota and North and South Dakota. The camps are open to all men between 16 and 35 years of age. All expenses of the training period will be open about the middle of July and continues until the middle of August, will be borne by the government.

Applications for assignment to the camps are being received by the association here. The period of activity extends over four weeks.

## WARNING!

All automobile owners who have not yet obtained 1921 licenses and who do not have them on their cars according to regulations are subject to arrest and fine. Authorities have been lenient with motor car owners. Warning is given that in the future all owners of automobiles who do not have licenses will be arrested and vigorously prosecuted. The state department has plenty of licenses and there is no excuse for a motor car owner not having one.

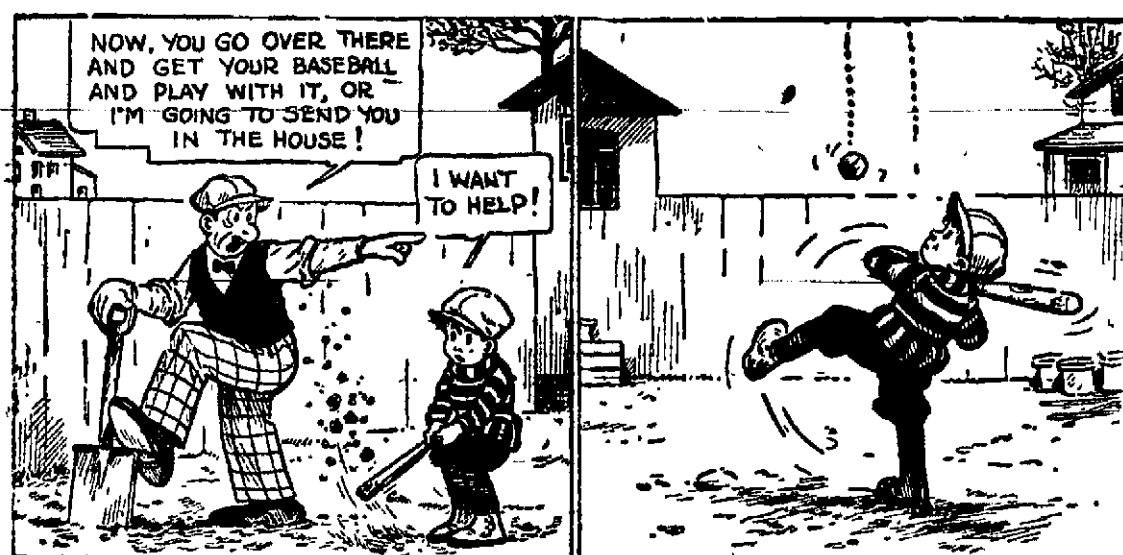

Complaints of speeding already have begun to reach the department. Policemen have been assigned with motor cars to arrest persons violating the motor speed laws. Reckless driving will not be tolerated and the department will ask that every speeder arrested be promptly fined.

## POTATO MEN DECIDE ON THE EARLY OHIO

Warehouse Proposition Discussed by Morton County Farmers at Meeting

Potato growers of Morton county in session Saturday afternoon at the Commercial club rooms decided to concentrate on certified Early Ohio potatoes.

These potatoes, it is expected, will be sold to the southern trade at better prices than can be obtained for other varieties or for common stock. Northern grown seed has been found by the southern growers to have greater vitality and to produce bigger and more profitable crops.

The proposition of a suitable warehouse at Mandan to facilitate shipment and handling of the crop was discussed but no action was taken.

Among the leading potato growers present were: H. L. Henke, L. N. Cary, Frank McGillie, James McGillie, Glen Taylor, Hugh Taylor, Charles Schauss, J. I. Rix and George Tipner.

County Agent Isle explained the system which could be followed in purchasing the seed together and thus saving a considerable sum.

## ORGANIZE TO FIGHT LEAGUE

Harry Center of Mandan has been selected as chairman of the independent forces in the coming recall campaign.

He will be assisted by W. F. Reley, former deputy game warden, as secretary, and W. J. Gill as treasurer.

The chairman will select an executive committee. One woman and one man will be chosen from each precinct and a county meeting will be held in the near future.

## HOLD FUNERAL OF MR. BROWN

Funeral services for Rev. Charles Hamilton Brown, pastor of the Episcopal church, who died Saturday, were held this afternoon at the church.

Bishop J. Poyntz Tyler officiated. He was assisted by Rev. Thomas Dewhurst of Bismarck, Rev. C. F. Drew of Jamestown, Rev. C. G. Fox of Valley City, and Rev. Alexander Coffin of Dickinson.

## MUSICAL CLUB MEETS TUESDAY

A meeting of the Mandan Musical club will be held Tuesday at the Commercial club rooms. Mr. Dale, chorus leader, will conduct a rehearsal.

Mrs. A. H. Peterson, chairman of the membership committee of the club, has announced the following as assistants: Mrs. E. R. Griffin, Mrs. W. H. Vallancey, Mrs. W. H. Stutsman, Miss Ethel B. Haigh, and John Kilen Schmidt.

## MORTON COUNTY COUPLE UNITED

Miss Marie Gruenfelder of Mandan and Jos. Kalberfelder of Solen, were married Saturday at St. Joseph's church by the Rev. Fr. Clemans.

A wedding breakfast followed at the home of Anton Gruenfelder, the bride's uncle. Mrs. Kalberfelder came from Switzerland three months ago. The groom is one of the popular men of the Solen district south of Mandan.

The bride was dressed in attractive white silk and georgette crepe, and carried a bouquet of orange blossoms and roses.

## TWO LEAGUE STORES QUIT

Minot, N. D., April 11. The Consumers United Stores Co. stores in London and Rugby are being closed and the stocks transferred to the Minot store, according to T. J. Power, operating manager for the store company, who came to Minot yesterday.

It is in connection with the store company's intention of the store company to put on a sale in Minot in the near future and dispose of as much of the stock as possible. Mr. Powers stated No announcement is forthcoming as to the future of the Minot store although it is known an effort is being made to have farmers take over the store and operate it as a co-operative owned institution.

## POSTPONE CONTENT HEARING.

Carson, N. D., April 11. The contest brought by Wm. Nultemeier contesting the sheriff's office and also the contest brought against Auditor Horlitz has been postponed until Tuesday, April 12.

## GENERAL WOOD OFF FOR PHILIPPINES WITH OPEN MIND

Visit Promises Citizenship But Not Independence to Islanders

BY LINTON WELLS  
SAN FRANCISCO, April 11.—I started out to interview Maj. Gen. Wood. But he interviewed me. General Wood is en route to the Philippine Islands as a special representative of President Harding to investigate the readiness of the Filipinos for self-government.

General Wood

He explains he is seeking information, not giving it.

He wants the American people to know that he goes with an absolutely open mind and no prejudices.

And he points out were he to talk in any fashion regarding the islands, it would seem to indicate he might have an opinion already formed.

When he learned that I was but shortly returned from the Philippines and had been over there for a period of years, he opened up on me.

**Protection.**

"In the event of independence, whom do the Filipinos believe would protect them from outside aggression?" he asked.

I considered the question significant.

"Why, the United States, I suppose," I replied. "In the same manner as she protects Cuba."

"Hum-m-m!" was his comment.

"I suppose the Jones bill is quite popular among the Americans there," he remarked.

I agreed.

And then he asked if a Filipino had not been suggested for the post of vice governor.

I replied that Senate President Manuel L. Quezon had been recommended by Harrison for the post of governor general.

A smile was his only comment, but later he remarked that he knew both Quezon and Sergio Osment, speaker of the House of Representatives, and that both were good men.

**Opposition.**

He appeared very interested in newspaper clippings which I had brought from the island—many outwardly friendly toward the administration—and requested copies.

I told him that a recent press dispatch from Manila said both he and W. Cameron Forbes, former governor general of the Philippines, were unpopular with the Filipinos and not desired as governor generals.

He appeared surprised.

General Wood denied having talked with former President Taft while in the east, but admitted that he would "call upon Elihu Root informally."

Root is here for a few weeks' visit.

Taft and Root oppose Filipino independence.

Wood said that he had not conversed with members of the congressional junket that visited Manila last July, and appeared deeply interested in reports concerning it.

Concerning reports that he would visit Japan, Wood said that an invitation had not been "officially tendered," but if it were he would accept.

## Citizenship

From all information that can be pieced together here, a compromise with the Filipino independence advocates is likely to be the outcome of the mission.

It is not likely that independence will be granted the Filipinos.

Instead, a territorial form of government will result which will give the Filipinos citizenship and incidentally pave the way for ultimate self-government.

Accompanying Wood on the mission are W. Cameron Forbes, Colonel P. R. McCoy, Colonel Gordon Johnson, Major Edward Bowditch and Lieutenant O. C. Wood, the General's son, besides a corps of secretaries.

The mission sailed April 9, arriving in Manila about May 4.

## INSIDE STORY OF VIVIAN'S VISIT TOLD BY ENVOY'S COLLEAGUE

Former Premier of France, now in Washington, Decides Best He Can Hope For is Senate's Approval of Reparations

BY H. B. HUNT.  
Washington, April 11.—Recognition by the United States senate, in any resolution or treaty establishing a peace with Germany, of Germany's responsibility for the war and of her obligation to make reparation to the full extent of her ability, is the most that Europe may expect from this country.

That is the decided opinion of Former Premier Viviani of France and his associates following conferences with President Harding, Secretary of State Hughes and members of the Senate Foreign Affairs committee.

Convinced that the United States never will ratify the Versailles Treaty or the League of Nations, Viviani will bend his energies during the remainder of his stay here to laying the groundwork for the inclusion of such a clause in any separate peace resolution that may pass the senate.

"Such a clause," says Stephen Lauzanne, editor of Le Matin of Paris, who accompanied Viviani to the United States and has participated in conferences with administration and senate heads, "would do more toward settling the reparations issue than the French army of occupation."

Lauzanne is the one man on the inside who is in a position to speak. "Until the reparations issue is settled, there can be no real peace or prosperity in Europe and, looking at that, no real economic ability in America," says the famous French editor.

The note of Secretary of State Hughes to Berlin, in which he set this government stands with the governments of the allies in holding Germany responsible for the war and, therefore, morally bound to make reparation, so far as may be possible, expresses exactly the view we should like to see incorporated in any senate peace resolution.

**Hughes' Note Speaks for Executive, But Not Legislative Branch of Government.**

"The Hughes' note of course, voices the administration attitude, and we believe, the attitude of a majority of your senate."

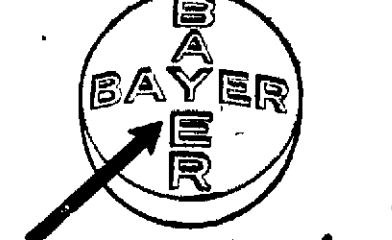

"But the fixing of guilt and the placing of responsibility by the head of the administration only, leaves the door open to doubt in Europe as to how far that view will be enforced."

"Europe has found out that, to be effective, the chief executive's views or that of his secretary of state, must be backed up by the senate."

"France, for instance, did not want a League of Nations. We took it be-

may be possible to insert such a clause in the Knox peace resolution, which seems certain to be made the basis for the senate's consideration of peace."

**French Mission Does Not Hope For Separate Ratification of Versailles Treaty.**

"Have your conferences developed any suggestion, that there might be any attempt to separate the Versailles Treaty from the League of Nations and ratify the treaty?" Lauzanne was asked.

"No. If the members of the Foreign Affairs committee, with whom we have talked, reflect the sentiment of the senate, there is absolutely no chance for any consideration of the Treaty of Versailles. The opposition appears very bitter."

"In view of the failure of the United States to enter the league, and of the belief that the league, without the United States, is ineffective and impotent, is there any likelihood of France's withdrawal?"

**Settlement of Reparations Problem Held of Unsettled Importance to All.**

"France has signed the covenant and will carry out her agreements under it faithfully and fully. There will be no withdrawal."

"Has America's failure to enter the league complicated France's problems?"

"Undoubtedly! There are many provisions of the treaty which would have been simplified if the United States had ratified. The whole administration of the Saar valley, for instance, to which we have to look for coal and iron, would have been simplified and harmonized had there been representation by the United States on the league commission there."

"But the big influence, economically, would have been the advantage of a solid front in dealing with the question of reparations."

"Failure of the United States senate to ratify the treaty or to impress upon Germany recognition that she must

pay to the extent of her ability, has led the Germans to believe they could evade any substantial reparations.

"The importance of the whole reparations question, not only from a French or European, but even from an American standpoint, cannot be overestimated."

"Financial and economic collapse threatens Europe if reparation is long delayed or evaded. And in any such collapse America, naturally, would suffer."

**JELLY BEANS MUST GO**  
MONTGOMERY, Ala., April 11.—Chief W. H. Taylor has issued a warning that "jelly-beans" won't be tolerated. "Never heard of them?" They're young fellows who stand on the street corners ogling girls and making remarks about them. The name? From the jelly-bean ties and the jelly-bean hats they wear and the jelly-bean candy they munch as they loaf.

## ROSEN OCCUPIES NEW BUILDING ON 5TH STREET

The Bismarck Bargain Store, conducted by R. C. Rosen at the corner of Main and Fifth streets until the store was devastated by fire recently, will resume his business about May 1st in the new brick building at 117 Fifth street. Work on the building was started last fall and it is now nearing completion, work being rushed so that Mr. Rosen will be able to move in by the first of the month.

Mr. Rosen will carry a complete line of men's clothing, shoes and furnishings. The goods that were not destroyed in the fire will be put on sale as soon as the new store opens.
